

2. Funding Period for the SFB 854 (2014-2017)

28.11.2013 - The German Research Foundation (Deutsche Forschungsgemeinschaft - DFG) has decided on the continuation of the Collaborative Research Center (Sonderforschungsbereich - SFB) 854. Following a positive evaluation, 10 research projects were granted excellency along with a funding amount of 10 Million Euros until 2017. The projects of the SFB 854 (<http://www.sfb854.de/en/>), which are largely located at the Medical Faculty of the OvGU, allows scientists to approach the research of the 'Molecular Organisation of Cellular Communication in the Immune System in an interdisciplinary manner.
