

Funding approval for joint project PtX-Wind

28.09.2021 - **The Federal Ministry of Education and Research (BMBF) has approved the collaborative project PtX-Wind funding.**

The PtX-Wind project is one of four collaborative projects that make up the H₂Mare lead project. Scientists from the Department Process Engineering at the Max Planck Institute for Dynamics of Complex Technical Systems Magdeburg are involved in the PtX-Wind project under the leadership of CDS spokesperson Prof. Dr.-Ing. Kai Sundmacher.

Within the next four years, the H₂Mare lead project is to lay the foundation for technology leadership that will lead to a significant reduction in greenhouse gases. Funding for H₂Mare will amount to up to 740 million euros.
