CDS Scientists Present their Research in the Guericke '15

26.01.2016 - In late 2015, several articles (in german language) introducing individual scientists of the Research Center and the work were published in the Guericke '15, the University's annual scientific magazine.

The team surrounding **Junior Professor Andreas Bück** that engages in drying of pharmaceuticals using fluidised bed techniques, shows that it is mainly ›the right mixture that matters

(https://issuu.com/ovgumagdeburg/docs/20151109_ovgu_guericke_versioncc201/51) .

Yet another article discusses, ›how mathematicians may contribute towards the establishment of personalized medical therapie:

(http://issuu.com/ovgumagdeburg/docs/20151109_ovgu_guericke_versioncc201/95?e=0/31621293) .
