

CDS RESEARCH CENTER DYNAMIC SYSTEMS SYSTEMS ENGINEERING

Prof. Seidel-Morgenstern ends his IAS presidency

20.07.2022 - From May 22-27, 2022, the 14th International Conference on the "Fundamentals of Adsorption" was held in Broomfield, Colorado. Every three years this conference is organized by the International Adsorption Society. This year, the focus was mainly on the capture of CO₂ from different gas streams such as biogas, natural gas, industrial waste gas and the air.

At the end of the conference, CDS member Andreas Seidel-Morgenstern handed over the baton to Prof. Paul Webley, thus stepping down from his three-year presidency of the IAS.
