

European Cell Death Organization (ECDO) conference

01.12.2022 - From September 26 to 29, 2022, the annual conference of the European Cell Death Organization was held for the 28th time under the theme "Inflammation links neurodegeneration and cancer". As one of the world's most prestigious scientific meetings in the field of cell death, it annually invites outstanding scientists from all over the world. The working group of Prof. Dr. Inna Lavrik (President of ECDO 2023-2025) was involved in the planning, organization and implementation of this year's conference.
